## EXTENSIVE STREET RAILWAY IMPROVEMENTS

Rapid Transit People Will Spend  
Quarter of a Million on Ex-  
tensions and Repairs.

OGDEN, April 2.—Extensions and im-  
provements aggregating a quarter of  
a million dollars have been outlined  
by the officials of the Ogden Rapid  
Transit company for the coming sum-  
mer months. The largest extension  
will be the new Brigham City line,  
the rails for which will cost about  
\$100,000. This line will open up much  
new country for interurban traffic and  
be of untold benefit to Ogden. The  
Twenty-fifth street line will be entirely  
rebuilt during the summer and all  
tracks in the city will be put to grade.  
The Twenty-fourth street-Wall avenue  
loop will not be started before 60 days,  
pending the arrival of material, but  
the latter part of July will see this line  
in operation. Six new interurban cars  
of the most modern type will arrive  
in the city within a few days and  
will be placed on the Hot Springs and  
Canyon lines until the Brigham City  
extension is completed. A large force  
of men will be engaged during the en-  
tire season on these street railway im-  
provements.

## DAMAGE TO LUCIN CUT-OFF BY STORM

OGDEN, April 2.—It is estimated  
that \$50,000 damage to the Ogden-Lu-  
cin cut-off was the result of the big  
storm, Monday. To repair the "fills"  
which were washed out, 5,000 cars of  
ballast were required, and the stu-  
pendous task of loading, hauling and  
dumping these cars was accomplished  
in 24 hours. Five work trains, hauling  
ballast from Lakeside gravel pits day  
and night were engaged in this work.  
It is the intention of the railroad offi-  
cials to raise the "fills" on the east  
and west ends of the trestle about five  
feet so as to be on a grade with the  
main line on the west end. The last  
mile on the west end "fill" will be  
trestled and pile drivers are now be-  
ing placed in position preparatory for  
this work. Several seasons have been  
brought from San Francisco to work  
on this part of the improvements as  
ordinary carpenters and laborers are  
unable to do steady work above ground  
continually moving water. Assistant En-  
gineer A. Q. Campbell is in charge of  
the work and before many weeks will  
have a force of between 500 and 1,000  
men daily under his supervision in  
the Ogden yards and on the big lake  
bridge.

## OLD C. P. ROUTE TO BE THOROUGHLY REPAIRED

OGDEN, April 2.—Work will be start-  
ed at once on repairing the old Cen-  
tral Pacific route north of the lake, by  
way of Kelton and Umbria Junction.  
The recent heavy storm on the Ogden-  
Lucin cut-off necessitated the use of  
this line and as much of the track was  
in bad shape, slow schedules were  
maintained by all detoured trains.  
After the construction of the cut-off,  
the old route was practically aban-  
doned and light weight rails were laid  
for emergency use only. The  
week's disaster has taught the officials  
a lesson, heavy rails will be put down  
on the entire route, and the old road-  
bed put in good condition. It is also  
stated that the old water tank, tele-  
graph office and engine house at Kel-  
ton will be rebuilt and kept ready for  
use.

## IMMENSE ICE HOUSE FOR DEPOT

OGDEN, April 2.—Before May 1, the  
construction of a large modern ice  
house and a large brick building for  
the car repairers and equipment will  
be started in the railroad yards im-  
mediately west of the depot annex,  
across the passenger tracks. The ice  
house will have a capacity of 5,000 tons  
and will be used for the furnishing of  
ice for passenger trains. It will be  
one of the finest on the entire Harriman  
system and will be constructed of hol-  
low concrete blocks with wood block  
center.

## TWO SUSPECTS ARRESTED.

Ogden, April 2.—Joe French and R.  
C. Brightwell were arrested on Friday  
by Officer Tommy Jones. Both are  
suspected of pilfering clothing which  
they sold to a second-hand store.  
When confronted by an officer of the  
law, they each blamed the other and  
so both men were taken to the station.  
Among their effects were several neck-  
ties, gloves and odd articles of cloth-  
ing.

## OGDEN POLICE COURT.

OGDEN, April 2.—Lee Vetsman  
pleaded guilty to drunkenness in po-  
lice court Friday and was sentenced to re-  
main in jail for five days or pay a  
fine of \$5.  
Ed Jones and Mr. Braggs were charg-  
ed with trespassing on the property of  
the Greenwood Park company and were  
sentenced to pay a fine of \$5 each or  
remain in jail for an equal number  
of days.  
James Pollis, a Greek, was arraigned

# CURES S.S.S. OLD SORES

Every old sore comes from some kind of impurity in the blood. It remains  
an open, discharging place on the flesh because the circulation constantly de-  
posits into the fibres and tissues which surround the spot, the infectious matter  
with which the blood is contaminated. It is impossible for the sore to heal while  
the blood is in this impure state. S. S. S. kills old sores because it is the  
greatest of all blood purifiers; it goes into the circulation and removes the cause  
from the blood. When the blood has been purified there is no longer any inflam-  
matory impurity or infectious matter to irritate the place, and nature causes a  
healthy and natural healing of the ulcer. It is all well enough to endeavor to  
cleanse an old sore, or stop the itching, or absorb the discharge, with external  
applications, but a cure can never be reached in this way, because such applica-  
tions do not reach the blood where the cause is located. S. S. S. does not simply  
cleanse a sore permanently by healing an old sore, but beginning at the bottom it heals the  
leak. S. S. S. is a purely botanical remedy, being made entirely of roots, herbs  
and poisons from the circulation. Old people who have suffered for years with a  
healing sore will find S. S. S. a most helpful tonic and system builder in counter-  
acting the debilitating effects of the old ulcer. Special book on Sores and Ulcers  
free to all who write.
